

# Fact Book **2021**

## Editor's note

The *Fact Book* is truly a university-wide effort. We are personally indebted to the many departments and individuals who lend their time, expertise, and support year after year. Without them, this publication would cease to exist. We therefore wish to publicly acknowledge the efforts of all involved and especially thank the following:

Michael R. Blackburn, PhD  
Executive Vice President & Chief Academic Officer

### *UTHealth Office of Academic Affairs*

Eric Solberg  
Deanne Hernandez  
Diana Keosayian, EdD  
Kathy Rodgers  
Anu Sankhavaram

### *Also*

Editor, *Fact Book 2021*

## Preface *Fact Book 2021*

---

The Office of Academic Affairs is pleased to introduce the thirty-first edition of The University of Texas Health Science Center at Houston's (UTHealth) annual *Fact Book*.

Data, where appropriate, align with:

- The university's Annual Financial Report;
- Certified Texas Higher Education Coordinating Board reports (enrollment, degrees conferred, faculty, medical residents);
- Performance Measures reported to the Legislative Budget Board (uncompensated charity care, medical outpatient clinical activity – visits); and/or
- Other State and UT System required reports (financial aid, research expenditures, facilities, philanthropy)

Most tables portray FY 2020 data, which covers the period of September 1, 2019 – August 31, 2020. Enrollment and employee figures are as of October 2020 and organization charts are current as of press time.

Table titles will indicate the date(s) covered.

### UTHealth **Mission Statement**

---

As a comprehensive health science university, the mission of The University of Texas Health Science Center at Houston is to educate health science professionals, discover and translate advances in the biomedical and social sciences, and model the best practices in clinical care and public health.

We pursue this mission in order to advance the quality of human life by enhancing the diagnosis, treatment, and prevention of disease and injury, as well as promoting individual health and community well-being.

### UTHealth **Vision Statement**

---

Excellence above all in the quest to be an acknowledged leader in the collaboration to treat, cure and prevent the most common diseases of our time through education, research and clinical practice.

---

## The University of Texas Board of Regents

---

source: <https://utsystem.edu/regents>

The Board of Regents, the governing body for The University of Texas System, is composed of nine members who are appointed by the Governor and confirmed by the Senate. Terms for Regents are scheduled for six years each and staggered so that three members' terms will usually expire on February 1 in odd-numbered years. In addition, the Governor appoints a Student Regent for a one-year term that expires on May 31.

Throughout the more than 100-year history of The U. T. System, the Board has been composed of dedicated and distinguished Texans who have been strong advocates of excellence in academic programs, scientific inquiry, and responsible public service.

## History and Purpose

The School of Biomedical Informatics (SBMI) is the first and only national program at a school level devoted exclusively to graduate education in biomedical informatics. Informatics first became the focus of SBMI in 1997. The school's name was changed to the School of Health Information Sciences in 2001, and it was rebranded in 2010 to more accurately reflect its new mission. SBMI is now recognized locally, nationally, and internationally for its innovative, interdisciplinary approaches to research, education, and applications in informatics. SBMI's vision is "transforming data to power human health." The mission of SBMI is to collect, process, and convert data—ranging from molecules to populations—into actionable information, knowledge, and intelligence; educate current and future leaders, innovators, and problem solvers across Texas, the nation, and the world; and disrupt, transform, and innovate to elicit biomedical discoveries, improve healthcare delivery, and aid in disease prevention by conducting outstanding basic and applied research and developing impactful information technology products and solutions. Biomedical research and healthcare solutions are advanced by bringing together the computer, engineering, mathematical, cognitive, biomedical, and clinical sciences. SBMI's interdisciplinary programs mean that breakthroughs in the lab will be translated more efficiently into quality care; researchers will have better tools to advance treatments and cures, physicians will have better diagnostic tools and ways to obtain necessary information, and patients will have better access to personalized care and disease prevention.

## Instructional Programs

Biomedical Informatics is the interdisciplinary scientific field that studies and pursues the effective uses of biomedical data, information, and knowledge for scientific inquiry, problem solving and decision-making, motivated by efforts to improve human health (amia.org). SBMI offers interdisciplinary graduate-level courses in health and biomedical informatics for students enrolled in UTHealth schools and for health professionals, IT professionals, and scientists in the Texas Medical Center (TMC), across the nation, and throughout the world. The curriculum stresses the development of interdisciplinary teams to evaluate and address the complex informatics issues that confront healthcare and biomedical research in this century. Students enter SBMI's Biomedical Informatics programs with a strong scientific foundation derived from their previous undergraduate or graduate studies, and study methods for communicating knowledge across traditional, professional, and organizational barriers. As they progress, students acquire the skills needed to organize, store, display, communicate, and evaluate that knowledge across a variety of systems: electronic, social, and political.

Currently, SBMI offers three degree programs: a master of science in Biomedical Informatics (MS); a doctor of philosophy in Biomedical Informatics (PhD); and a professional Doctorate in Health Informatics (DHI). A MS student may choose from two tracks: a traditional research track or an applied track. The school also offers a dual degree program leading to an MD/MS with both the McGovern Medical School and the UT-Rio Grande Valley School of Medicine and a dual degree program in Public Health Informatics with the School of Public Health, leading to an MPH/MS or an MPH/PhD. In addition, SBMI collaborates with the Cizik School of Nursing to provide the Doctor of Nursing Informatics with biomedical informatics course instruction. SBMI has five, five-course certificate programs: Health Data Science, Biomedical Informatics, Applied Biomedical Informatics, Pharmacy Informatics, and Public Health Informatics.. The master's and certificate programs can be completed online. The PhD is a full-time, face-to-face program and the DHI is hybrid with both online and face-to-face components.

Students come to SBMI with a variety of skills and diverse backgrounds. Each student, along with a faculty advisor, determines her or his program of study from a variety of courses. Our school has three concentrations: Data Science and Artificial Intelligence, Clinical and Health Informatics, and Bioinformatics and Systems Medicine:

### Data Science and Artificial Intelligence

Within our data science and AI track, we contribute to the profound transformation in medicine using methods from Machine Learning, Natural Language Processing (NLP), Data Integration and Harmonization, Data Mining and Analytics, Computational Phenotyping, Predictive Modeling, Ontology, Data Security and Cryptology, and Biostatistics to significantly improve patient care, disease prevention, and biomedical discovery.

### Clinical and Health Informatics

Through the application of informatics and information technology solutions, our students and faculty within the Clinical and Health Informatics concentration are helping clinicians and healthcare providers improve the lives of patients around the globe. Examples of the areas of interest include Clinical Decision Support, EHR Usability and Workflow, Human Factors Engineering, Visualization, Population and Public Health, Patient Safety, Telemedicine, Social Media, Mobile and Connected Health, and Health Service Research.

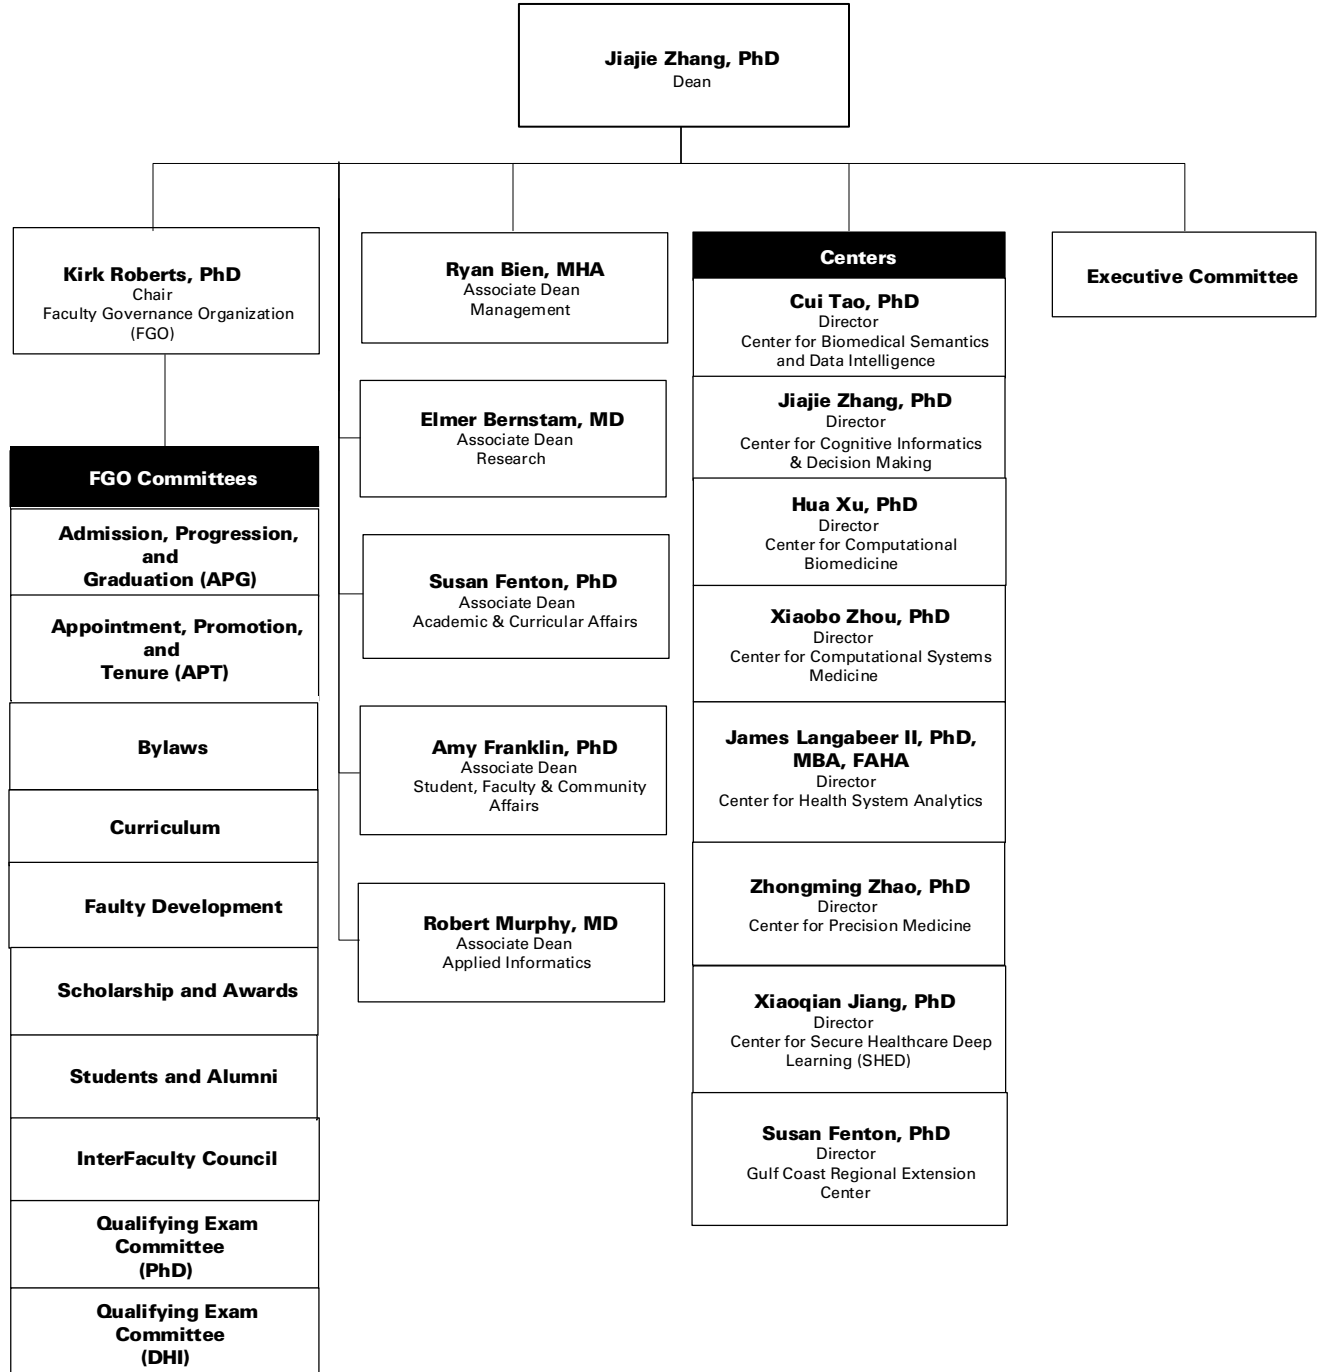

### Bioinformatics and Systems Medicine

Our bioinformatics and systems medicine groups merge biology, statistics, mathematics and computational modeling to increase understanding between biological data and clinical data to benefit patients. Topics within this concentration include Precision Health, Genomic Medicine, Pharmacogenetics, Functional Genomics, Next Generation Sequencing, Single Cell Sequencing, Microarray Data Analysis, Imaging, Biological Pathways, Smart Clinical Trials, and Multimodality Modeling.

# School of Biomedical Informatics *Organization Chart*

# School of Dentistry Profile

---

source: Arthur H. Jeske, DMD, PhD, School of Dentistry

## History and Purpose

Since 1905, The University of Texas Health Science Center at Houston (UTHealth) School of Dentistry has set the standard for oral health by educating outstanding dentists, specialists and dental hygienists while conducting research and caring for the people of Texas. Founded as the privately owned "Texas Dental College," it was the first dental school in the state and became part of UT System in 1943. In 1945, UT Regents authorized creation of the state's first academic dental hygiene program at the School of Dentistry. In 1955, the school assumed the name of "UT Dental Branch," but reverted to "School of Dentistry" on June 1, 2011. Since 1972, the school has been part of UTHealth.

## Fulfilling the Mission: Education

The School of Dentistry offers 10 accredited programs: DDS, dental hygiene, two primary care general residency programs, and advanced education programs in endodontics, oral and maxillofacial pathology, oral and maxillofacial surgery (OMS), orthodontics, pediatric dentistry, periodontics, and prosthodontics. The OMS program has two tracks: a certificate-only program, and a program leading to both a certificate and an MD degree from McGovern Medical School at UTHealth. The School of Dentistry and UTHealth School of Public Health now offer concurrent BSDH/MPH and DDS/MPH options for students, the School of Dentistry has also launched a new MSDH program. Through its unique PACE Center, the School of Dentistry is a leading provider of continuing dental education, event planning services, and guidance for students transitioning into practice. PACE is also home for alumni relations.

## Fulfilling the Mission: Research

Researchers at the School of Dentistry work in diverse areas to develop new knowledge applicable to the prevention, diagnosis and treatment of oral and systemic diseases. Current areas of investigation are:

- Genetic studies of orofacial clefts and tooth agenesis
- Dental informatics for improving quality and safety of patient care
- Oral biomaterials and digital restorative dentistry
- Regenerating craniofacial structures through tissue engineering
- Mechanisms of mucosal immunity and autoimmunity
- Molecular imaging of oral and other types of cancer
- Advanced imaging of craniofacial structures.

Students participate in research projects and the school oversees the master's level research of dental residents completing advanced education in endodontics, orthodontics, pediatric dentistry, periodontics, and prosthodontics. As a founding member of the Consortium for Oral Health Research and Informatics (COHRI), the School of Dentistry is one of eleven in the U.S. contributing to the BigMouth Dental Data Repository hosted at UTHealth.

## Fulfilling the Mission: Patient Care & Community Service

The School of Dentistry's vision statement, "Improving Oral Health ... Improving Overall Health," reflects the school's approach to patient care. In the predoctoral and postgraduate clinics, students and residents provide care under faculty supervision. The school also offers a multi-disciplinary faculty practice (UT Dentists) that includes a group practice located inside the school, an oral pathology (biopsy) service, oral and maxillofacial surgery services in Scurlock Tower, pediatric dentistry in Houston Medical Center Plaza, and oral and maxillofacial imaging services through the group practice.

Students gain clinical experience at the school, on the school's two mobile dental vans, and through the School of Dentistry's affiliations with local hospitals, dozens of schools, community agencies and long-term care centers. Using the latest dental technologies such as digital imaging, digital impressions, CAD/CAM, electronic patient records and laser dentistry, UTHealth's dental and dental hygiene students actively participate in caring for a variety of patient populations, with a focus on children and the elderly. The School of Dentistry is a primary source of quality oral health care for low-income families, the traditionally underserved, and for patients with special needs and/or medical co-morbidities.

## Facilities

Since 2012, the School of Dentistry has occupied a 300,000 square-foot building at 7500 Cambridge St. The Denton A. Cooley, MD, and Ralph C. Cooley, DDS, University Life Center (a conference facility), and the UTHealth Behavioral and Biomedical Sciences Building (a research facility) are attached to the dental school, which also owns and operates four off-site clinics in the Houston area:

- University Dental Center (postgraduate general dentistry), UT Professional Building, 6410 Fannin St., Suite 310;
- UTHealth Pediatric Dentistry (postgraduate clinic), Houston Medical Center Plaza, 6655 Travis St., Suite 460;
- UT Oral and Maxillofacial Surgeons (UT Dentists), Scurlock Tower, 6560 Fannin St., Suite 1900;
- UTHealth Greenspoint, Texas Children's Health Plan, 700 N. Sam Houston Parkway West.

More information about UTHealth School of Dentistry at Houston is available at [dentistry.uth.edu](http://dentistry.uth.edu).

# School of Dentistry Organization Chart

# MD Anderson UTHealth Graduate School of Biomedical Sciences *Profile*

source: Patricia Bruesch, MPA, MD Anderson UTHealth Graduate School of Biomedical Sciences

## History and Future

The University of Texas MD Anderson Cancer Center UTHealth Graduate School of Biomedical Sciences is a joint venture between The University of Texas Health Science Center at Houston (UTHealth) and The University of Texas MD Anderson Cancer Center (MD Anderson) that educates future biomedical scientists. Led by Dean Michael Blackburn, PhD, this unique interdisciplinary collaborative model of graduate education features faculty, classrooms, and laboratories from across the Texas Medical Center, including UTHealth and MD Anderson.

Authorized by the 58<sup>th</sup> Legislature in 1963, MD Anderson UTHealth Graduate School has been educating PhD and MS biomedical scientists and combined MD/PhD graduates for 55 years with a mission to educate research scientists and scientist-educators, generate new knowledge in the biomedical sciences that is translated into improved health and increase public understanding of science.

In 2017, MD Anderson UTHealth Graduate School received a transformative gift of \$10.5 million from famed researcher and alumnus John J. Kopchick, PhD, and his wife, Charlene, to train the scientists of tomorrow to meet the workforce needs of the state and nation.

## Instructional Programs

The School offers PhD and MS degrees, as well as a joint MD/PhD physician-scientist program with McGovern Medical School, which was awarded a multiyear Medical Scientist Training Program (MSTP) grant from National Institutes of Health (NIH) in 2018. In addition, two specialized Masters programs are offered: one in Medical Physics and one in Genetic Counseling, only the second such certified program in the State. With about 450 students who are working toward degrees, approximately 65 students graduate annually. The average time at MD Anderson UTHealth Graduate School to complete a PhD degree is 5½ years, which is less time than the national average. The student body includes approximately 31 percent of its population from Texas, 29 percent from the United States (not including Texas), and 40 percent who are international students; 59 percent are women and 41 percent men. The school has 19 students that are funded by NIH fellowships (F30, F31, and F31 Diversity). There are 12 active training grants that support GSBS students. Annually MD Anderson UTHealth Graduate School provides in excess of \$1 million in scholarship, fellowship and stipend support for scholastic excellence and research achievement.

The MD Anderson UTHealth Graduate School faculty is comprised of about 590 full-time members plus additional academicians. This large and distinguished group encompasses recipients of numerous awards and membership in several professional organizations such as the 2018 Nobel Prize in Physiology or Medicine, the Lasker Foundation Award (America's Nobel Prize); the Pezcoller Foundation-American Association for Cancer Research (AACR) International Award for Cancer Research; The Minnie Stevens Piper Foundation Professorship; the National Academy of Science and the American Association for the Advancement of Science. In FY 2019, the combined research expenditures of GSBS faculty members totaled over \$476 million in FY 2019. Both UTHealth and MD Anderson were in the top 100 institutions to receive NIH funding in FY 2019. UTHealth was ranked 63 and MD Anderson was ranked 52, respectively. UTHealth and MD Anderson combined, had 611 awarded projects totaling \$277,908,008. Combined, UTHealth and MD Anderson is ranked 25<sup>th</sup> amongst NIH research funded institutions in FY 2019.

Known for its educational philosophy of excellence, MD Anderson UTHealth Graduate School offers students the opportunity to join an established program that suits their professional goals. Two dramatic changes were added to our graduate students' curriculum activities to build a strong research foundation for their success. These changes include a Core Program in the basic biomedical sciences and skills for a consistent, up-to-date background for all incoming students; and, for all second year students, a formal presentation of lab coats serves to recognize the importance of selecting their mentors and programs of study.

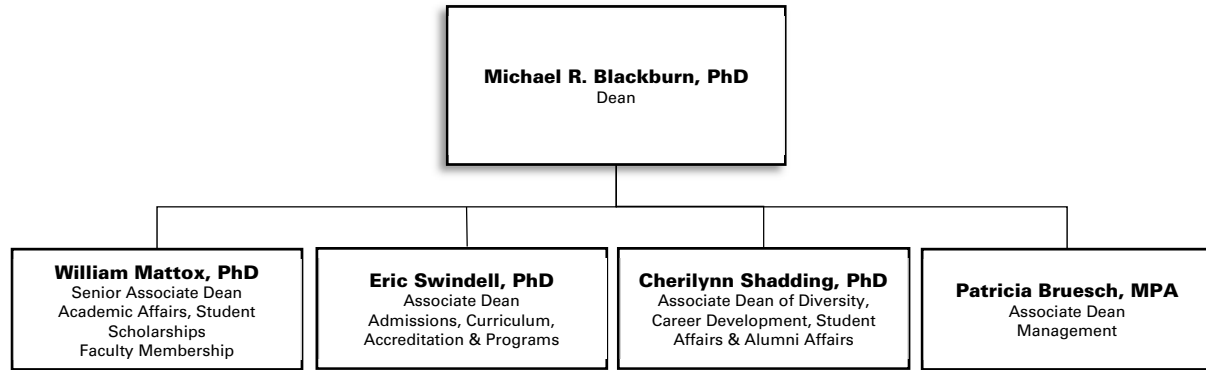

## Facilities

MD Anderson UTHealth Graduate School, including the Dean's Office and Administrative personnel, is located in the George and Cynthia Mitchell Basic Sciences Research Building in the June & Virgil Waggoner Academic Hall. The facilities are geared toward a dynamic student population encompassing state-of-the art classrooms, computer lab, auditorium, and telecom capabilities to beam classes and lectures around the globe.

The research facilities and related resources available to MD Anderson UTHealth Graduate School students are unmatched anywhere in the world. The collaborative nature of the graduate school, with world-class faculty from UTHealth, MD Anderson Cancer Center and Texas A&M IBT, expands throughout the Texas Medical Center – the largest medical center in the world including 69 academic institutions and hospitals. MD Anderson UTHealth Graduate School has developed academic arrangements (including shared research and classroom facilities) with other institutions, both individually and through the Gulf Coast Consortium (GCC), which includes the region's most prominent academic institutions – MD Anderson, UTHealth, The University of Texas Medical Branch (UTMB Health), Rice University, Baylor College of Medicine, and the University of Houston.

# MD Anderson UTHealth Graduate School of Biomedical Sciences *Organization Chart*

source: Patricia Bruesch, MPA, Graduate School of Biomedical Sciences

# John P. and Kathrine G. McGovern Medical School Profile

source: Claire Brunson, McGovern Medical School

## History and Purpose

On June 13, 1969, The University of Texas John P. and Kathrine G. McGovern Medical School at Houston (McGovern Medical School) was created by an act of the Legislature and an appropriation for its initial cost was made to be effective September 1, 1969. McGovern Medical School's mission is to educate a diverse body of future physicians and biomedical scientists for a career dedicated to the highest ideals of their profession; to provide outstanding patient-centered care; and to conduct innovative research that benefits the health and well-being of the population of Texas and beyond.

## Instructional Programs/Dual Degree Programs

*Doctor of Medicine* - The McGovern Medical School program leading to a medical doctor degree includes approximately 20 months of pre-clerkship course work. Basic and clinical sciences are presented in a systems-based modular format preceded by a Foundations of Medical Science semester focusing on cellular phenomena. A parallel course addresses the development of student clinical skills through a longitudinal clinical experience and standardized patient/simulation exercises. Teaching methodologies emphasize active student participation and the development of lifelong learning skills, such as problem-based and team-based learning. The clerkship phase includes required rotations in all major medical specialties. Students have the opportunity to pursue personal interests through one of several Career Focus Tracks consisting of electives and clinical selective requirements and potentially research. Thus, each student will have some flexibility in planning an educational sequence that relates specifically to their ultimate career goals and postgraduate educational plans. Each student has a faculty adviser who helps devise the student's educational sequence and assists with career goals and postgraduate educational plans.

*Doctor of Medicine/Doctor of Philosophy* - McGovern Medical School and MD Anderson Cancer Center UTHealth Graduate School of Biomedical Sciences participate in a combined program leading to the MD and PhD degrees. This program is sponsored and supported by both UTHealth and UT MD Anderson Cancer Center, is administered by an MD/PhD committee and involves faculty from both institutions. The requirements for the program meet the general requirements of both degrees in a flexible six-year program.

*Doctor of Medicine/Master of Science in Biomedical Informatics* - McGovern Medical School and the UTHealth School of Biomedical Informatics offer a program leading to an MD degree and a Master of Science in Biomedical Informatics. Through this unique program, students earning a Doctor of Medicine (MD) also study at SBMI and earn a Master of Science in Biomedical Informatics during their four years of medical school or a five-year path if preferred.

*Doctor of Medicine/Master of Public Health* - McGovern Medical School and the UTHealth School of Public Health offer a dual degree program leading to an MD degree and a Master of Public Health (MPH) degree. The curricula established for the program meet the general requirements of both degrees and are integrated along a four- or five-year path to support student career objectives.

*Doctor of Medicine/ Oral and Maxillofacial Surgery Residency (MD/OMS)* - 4-year and 6-year Advanced Education Programs in Oral and Maxillofacial Surgery are offered through McGovern Medical School. Each program prepares practitioners to treat diseases, injuries, and defects involving both the functional and aesthetic aspects of the hard and soft tissues of the oral and maxillofacial region. The basic prerequisites for both 4- and 6-year programs are a DDS or DMD degree from an accredited dental school and National Dental Boards Parts I & II.

*Doctor of Medicine/Master of Business Administration* - McGovern Medical School offers a dual degree MD/MBA program between McGovern Medical School and The University of Houston-Clear Lake. There is an anticipated need to increase the number of individuals trained in both medicine and business practices to serve in important roles in the health care professions. Students can obtain the MD and MBA degrees from McGovern Medical School and UHCL School of Business, respectively, by successful completion of the requirements of both degree programs. The curricula are integrated along either a four- or five-year path to support student career objectives.

*Doctor of Medicine/Master of Bioengineering* - McGovern Medical School offers a dual degree MD/MBE program between McGovern Medical School and Rice University. Through this unique five-year program, students can obtain the MD and MBE degrees from McGovern Medical School and Rice University, George R. Brown School of Engineering, Department of Bioengineering, respectively, by successful completion of the requirements of both degree programs.

*Master of Science in Clinical Research* - This degree program is designed as a focused, flexible, and affordable program to train clinical investigators in designing and conducting patient-oriented research that is of exemplary quality. The curriculum accommodates clinicians' busy schedules; classes meet one afternoon a week. The degree can be completed in two to four years, depending on the amount of time a participant devotes to the program. Participants may choose one of two tracks - a patient-based clinical research track, or a translational research track.

## Facilities

The nine-story Medical School Building (MSB) is connected on the south end to a six-story research building, the Medical School Expansion (MSE), which replaced the original John Freeman Building. On its north side, the building bridges Ross Sterling Avenue to form one continuous structure with Memorial Hermann-Texas Medical Center. The MSB contains offices, laboratories, classrooms, lecture halls, study areas, educational and biomedical communications support areas, student lounges, and administrative suites. McGovern Medical School uses the Jesse Jones Library Building for administrative and departmental functions and for clinical research activities. Four floors of the MSE are dedicated to research and two floors are devoted to a state-of-the-art vivarium. The Brown Foundation Institute of Molecular Medicine for the Prevention of Human Diseases (IMM) is located in the Faye S. Sarofim Research Building. The South Campus Research Building 3 houses research groups from Internal Medicine's Cardiovascular Medicine division, the Department of Pediatric Surgery, and IMM's Texas Therapeutics Institute and Center for Translational Cancer Research. The Department of Psychiatry and Behavioral Sciences also is located on the South Campus at the Behavioral and Biomedical Sciences Building. Physician faculty provide the majority of their outpatient care in the UT Professional Building, which is located across the street from McGovern Medical School, and at a growing number of UT Physicians and Harris Health community clinics around the Greater Houston area.

## Affiliated Hospitals & Group Practice

Primary affiliations are with Memorial Hermann Hospital -Texas Medical Center and the Lyndon B. Johnson Hospital of the Harris Health System. Other major affiliates include UT MD Anderson Cancer Center, UT Harris County Psychiatric Center, and the Texas Heart Institute/CHI St. Luke's Health. Please see Patient Care section for Faculty Practice Plan (MSRDP), UT Physicians, and Affiliated Medical Services.

# John P. and Kathrine G. McGovern Medical School *Organization Chart*

source: Darla Brown, McGovern Medical School

# Jane and Robert Cizik School of Nursing *Profile*

source: Sherri Green, Cizik School of Nursing

## History and Purpose

In November 2017, in recognition of a landmark gift of \$25 million, The University of Texas School of Nursing at Houston was renamed “Jane and Robert Cizik School of Nursing.” The School was established in 1890 as part of the John Sealy Hospital Training School for Nurses in Galveston, making it one of the oldest schools of nursing in the southwestern United States. The baccalaureate nursing program of the UT System expanded to Houston in 1972, the same year that The University of Texas Health Science Center at Houston (UTHealth) came into being. The school was organized in 1972 and began offering the master of nursing degree in the same year. In 1976, the system structure dissolved and Cizik School of Nursing was reorganized under the control of the health science center. The School initiated the Doctor of Science in Nursing degree program in 1995 (changed to the PhD in Nursing in 2007) and the first Doctor of Nursing Practice (DNP) degree program in Texas in 2006.

## Leadership

Diane M. Santa Maria, DrPH, MSN, RN, serves as dean of Cizik School of Nursing, appointed effective September 1, 2020.

## Instructional Programs

*Bachelor of Science in Nursing* – Cizik School of Nursing offers an undergraduate program leading to the degree of Bachelor of Science in Nursing (BSN). The undergraduate program is designed for students who wish to enter the profession of nursing and for nurses who have earned an associate degree or diploma in nursing and desire to obtain the baccalaureate degree. The RN-BSN track consists entirely of online classes, except for 90 clinical hours in the “Community Health Project for RNs” clinical course. The school offers the Pacesetter BSN track, which is a full-time program of four semesters, consisting of clinical, skills lab and nursing theory courses. In the Pacesetter model, students use their final 16 weeks doing full-time clinical rotations and “live the life of a nurse” while still completing their degrees. Admissions three times a year are offered for this track, and a previous degree is not required. At 96.98 percent, UTHealth’s BSN graduates score above the national average (88.07 percent) for baccalaureate-degree first-time test takers on the NCLEX licensing examination in 2019.

*Master of Science in Nursing* – The master’s program (MSN) is designed for nurses who have baccalaureate degrees in nursing and wish to prepare for advanced practice in a specialized area with role preparation as nursing leaders/administrators or nurse practitioners. Students pursuing the MSN may choose from one of six clinical tracks: Adult/Gerontology Acute Care Nurse Practitioner, Adult/Gerontology Primary Care Nurse Practitioner, Family Nurse Practitioner, Nursing Leadership, and Psychiatric/Mental Health Nurse Practitioner. These tracks are also offered as a post-graduate certificate program for MSN or DNP-prepared nurses who desire additional education and/or role preparation. A Nursing Education track is offered post-graduate only. In addition, students may acquire an Emergency/Trauma Care post-graduate certificate. Admitting only in the spring semester, the innovative RN-MSN-FNP track is designed for associate-degree-prepared RNs who are looking to obtain their MSN degree with preparation as a Family Nurse Practitioner. This RN-MSN-FNP online/hybrid track totals 54 credits over six to seven semesters with attendance as a full-time student. The RN-MSN-Nursing Leadership track admits only in the summer semester and totals 44 credits over nine to eleven semesters as a part-time student.

*Doctor of Philosophy in Nursing* – Since 1995, Cizik School of Nursing has been approved to award a doctoral degree in nursing. The Doctor of Philosophy (PhD) in Nursing program prepares nurse scientists who will improve health and health care. The PhD program consists of 66 credits and admits students only in the fall semester. The curriculum includes both online and on-campus courses.

*Doctor of Nursing Practice (DNP) Program* – Cizik School of Nursing graduated the first DNP class in the state in May 2009. The DNP degree program is a cutting-edge practice doctorate that prepares advanced practice nurses with depth and breadth of knowledge and competencies to be clinical scholars recognized for outstanding direct patient care and leadership in nursing practice and healthcare organizations. Cizik School of Nursing offers DNP options for BSN- and master’s-prepared nurses. The post-master’s DNP track admits nurse practitioners, clinical nurse specialists, nurse anesthetists, nurse executives, and nurse informaticists. An eight-semester degree plan is available, with starts in the fall semester only. The DNP hybrid/blend curriculum includes 32-50 credit hours, depending on options selected, and it is designed to meet the educational needs of busy, working advanced practice nurses. DNP students meet on campus for two consecutive days, three times a semester. The DNP in Nursing Informatics track – a collaborative venture with UTHealth School of Biomedical Informatics – is designed and tailored specifically for nurse informaticists, and is the only program of its kind in the state of Texas. The eight-semester Nurse Executive track prepares graduates for high-level executive leadership positions in organizations and systems. Cizik School of Nursing expanded its BSN to DNP Nurse Practitioner tracks in Fall 2019 to include family and psychiatric/mental health NP specializations and added adult/gerontology primary and acute care tracks in Fall 2020. The integrated BSN-DNP curriculum is in line with the National Organization of Nurse Practitioner Faculties’ (NONPF) commitment to move all entry-level nurse practitioner education to the DNP degree by 2025. The program is not an addition to master’s studies, but rather an integration of the objectives and learning opportunities required for attainment of doctoral level core and population-focused competencies. The curriculum includes 79 credit hours with several days a semester required on campus and/or in clinical settings. Cizik School of Nursing was the first and only public university in Texas to offer a nine-semester program from the BSN degree to a DNP in Nurse Anesthesia.

## Facilities and Affiliations

Clinical learning experiences are available within other UT components in the Texas Medical Center and in the broader community. Affiliate institutions include: UT MD Anderson Cancer Center, Memorial Hermann Healthcare System, CHI St. Luke’s Health, Texas Children’s Hospital, St. Joseph Hospital, TIRR Memorial Hermann, UT Harris County Psychiatric Center and other healthcare facilities. Students also have opportunities for learning experiences in neighborhood health centers, nursing homes, day care centers, city and county health departments, mental health facilities, and medical offices and clinics.

Clinical education and patient care are offered by UT Health Services (UTHS), established in 1991. UT Health Services is located at 7000 Fannin St., Suite 1620. This clinic provides comprehensive primary care across the life span, occupational medicine, health education, behavioral health services, travel medicine and laboratory services to individuals within the university and to the larger community. The providers are nurse practitioners, and a physician periodically is available in clinic to meet any additional medical needs. UTHS has been awarded Level 3 recognition by the National Committee for Quality Assurance (NCQA) Patient-Centered Medical Home 2011™ program, which is the highest recognition NCQA provides for patient-centered, coordinated care that supports access, communication and patient involvement. Contact 713-500-3267 or go to [UTHealthservices.com](http://UTHealthservices.com) for more information.

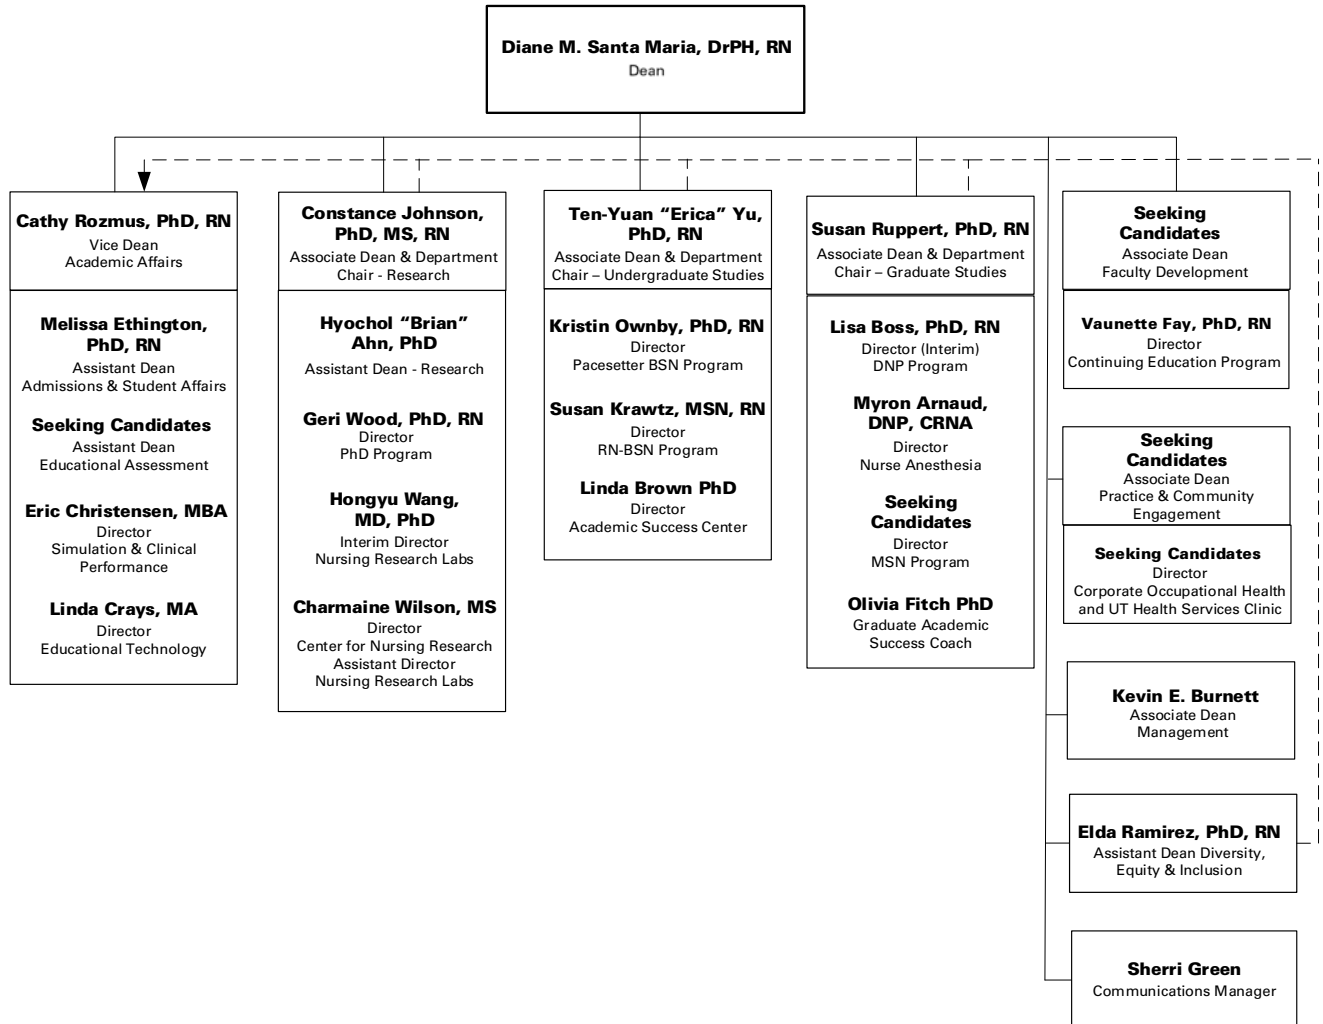

## Accreditations

The baccalaureate degree in nursing, master’s degree in nursing, Doctor of Nursing Practice, and post-graduate APRN certificate programs are accredited by the Commission on Collegiate Nursing Education (CCNE). UTHealth’s Nurse Anesthesia program is accredited by the Council on Accreditation of Nurse Anesthesia Educational Programs.

## School of Public Health Profile

---

source: Sarah Donahue, School of Public Health

The University of Texas Health Science Center at Houston (UTHealth) School of Public Health (SPH) has been working since 1967 to ensure that millions of people all over the world lead healthier, more productive lives. SPH does this by providing a top-tier education to future public health professionals, and by conducting innovative research that leads to major breakthroughs in the prevention and treatment of today's most intractable health problems. The school's vision is "Health without boundaries" and they achieve this vision through the mission, "Changing the culture of health through excellence in graduate education, research, and engagement." SPH has six campuses across Texas: Austin, Brownsville, Dallas, El Paso, Houston, and San Antonio. Four departments cover the core areas of public health: Biostatistics and Data Science; Epidemiology, Human Genetics and Environmental Sciences; Health Promotion and Behavioral Sciences; and Management, Policy and Community Health. Ten research centers focus on specialized needs in diverse areas of public health.

### History

Authorized in 1947, the Texas State Legislature appropriated funds for The University of Texas School of Public Health at Houston (later branded as UTHealth School of Public Health) in 1967. The first student was admitted in 1969. Enrollment grew by leaps and bounds during the first 10 years, a testimony to the previously unfulfilled need for public health professionals.

### Locations

The Houston campus is located in the heart of the Texas Medical Center—the largest medical complex in the world—offering students unmatched opportunities for research and employment. The main structure, the Reuel A. Stallones Building, was named for the school's first dean. The 10-story, 220,000 gross-square-foot building is located in a park setting with outstanding classroom, computer and research laboratory facilities. To address the need for graduate-level public health education across Texas, additional campuses were established in San Antonio (1979), El Paso (1992), Dallas (1998), Brownsville (2001), and Austin (2007). Most of our campuses are affiliated with a host campus in The University of Texas (UT) System, including UT Austin, UT Rio Grande Valley, UT Health Science Center at San Antonio, and UT Southwestern Medical Center at Dallas. Our El Paso campus is embedded in the Cardwell Collaborative Building, which is an integral part of the growing biomedical and healthcare community linking Texas, New Mexico and the nation of Mexico.

### Degree Programs

UTHealth School of Public Health offers four degree programs, including a variety of dual-degree programs, which help students build and hone the skills required for careers in public health. All degree-seeking students are eligible to complete one or more graduate certificate programs in addition to their required coursework.

*Master of Public Health* – The Master of Public Health (MPH) degree is the fundamental professional degree, required for many supervisory and managerial positions in public health and recommended for others. Most full-time MPH students take approximately 18–24 months to complete the degree program. Curricula for this degree are offered in the areas of Community Health Practice, Environmental Health, Epidemiology, Health Promotion/Health Education, Health Services Organizations, and Healthcare Management. Students may also pursue a customized or dual-degree program. The MPH degree requires successful completion of a minimum of 45 semester credit hours.

*Master of Science* – The Master of Science (MS) degree signifies academic accomplishment in a public health discipline. This degree is available to individuals who plan careers in academia and research. Most full-time MS students take at least two years to complete the degree program. Curriculum for this degree is offered in the area of Biostatistics. The MS degree requires successful completion of a minimum of 36 semester credit hours.

*Doctor of Public Health* – The Doctor of Public Health (DrPH) degree signifies distinguished scholarly accomplishment. This degree is available to individuals who plan careers in advanced professional practice, academia, or community-based research. Most full-time DrPH students take approximately three to five years to complete the degree program. Curricula for this degree are offered in the areas of Community Health Practice and Health Promotion/Health Education. The DrPH degree requires successful completion of a minimum of 54 semester credit hours.

*Doctor of Philosophy* – The Doctor of Philosophy (PhD) degree in a public health discipline represents outstanding scholarly achievement and signifies a capacity for independent study. This degree is available to individuals who plan careers in academia and research. Most full-time PhD students take approximately three to five years to complete the degree program. Curricula for this degree are offered in the areas of Behavioral Sciences and Health Promotion; Biostatistics; Environmental Sciences, with tracks in Total Worker Health and Environmental Disease Prevention; Epidemiology; Health Economics/Health Services Research; and Healthcare Management/Health Policy. The PhD degree requires successful completion of a minimum of 48 semester credit hours.

### Dual-Degree Programs

UTHealth School of Public Health collaborates with many universities to provide our students with opportunities to expand their knowledge base and achieve advanced degrees. All dual-degree students complete an MPH degree from UTHealth School of Public Health. Our dual-degree programs are growing each year. The school currently offers the following dual-degree programs: DDS/MPH (1), JD/MPH (1), MBA/MPH (1), MD/MPH (8), MGPS/MPH (1), MPAff/MPH (1), MS/MPH (1), MSW/MPH (1), MSSW/MPH (1), PharmD/MPH (1), and PhD/MPH (1). Please see our website for more information.

### Graduate Certificates

Graduate certificates are available to degree-seeking and non-degree seeking students. For our master's and doctoral students, graduate certificates are a way to personalize their degree program. Graduate certificates are also available to individuals not in a degree program. For experienced public health professionals, our graduate certificates offer deeper specialization to help advance their current career. For those just starting out, or perhaps looking to transition into the field of public health, graduate certificates allow students to gain a foundation in public health and explore areas of interest. Non-degree seeking certificate students may be eligible to apply up to 16 credits from their certificate program to a degree-seeking program. Our graduate certificate programs are offered in the following areas: advanced data science; advanced planning and evaluation for health promotion programs; advanced quantitative methods for behavioral sciences; clinical nutrition and public health (Houston only); culinary nutrition and public health (Houston only); data science; genomics and bioinformatics; global health; health disparities; health promotion program planning and evaluation; healthcare administration; introduction to quantitative methods for behavioral sciences; leadership

theory and practice; maternal and child health; nutrition and public health (degree-seeking students only); physical activity and health (degree-seeking students only); public health (non-degree-seeking students only); public health informatics (non-degree-seeking students only)

### **Non-Degree Curricula**

UTHealth School of Public Health offers opportunities for education and training that do not have to culminate in a graduate certificate or degree. Non-degree students are allowed to take a maximum of 16 credit hours at UTHealth School of Public Health.

### **Continuing and Executive Education**

UTHealth School of Public Health provides continuing and executive education for professionals and decision-makers in government, healthcare, business, academia, labor, industry, and the general community. Continuing and executive education opportunities are available in the following areas: academic medical department leadership; child health; community health; environmental health; health disparities; health promotion; Lean Six Sigma Green Belt; nursing leadership; occupational health and safety; physician leadership; and prevention and preparedness.

### **Special Programs**

*Industrial Hygiene* – Industrial hygiene is a science devoted to anticipating, recognizing, evaluating, and controlling environmental factors posing risks to workers. This curriculum offers a high level of faculty and student interaction, and emphasizes practical experience through hands-on field activities in a variety of settings, including industry, healthcare, agriculture, petrochemical, business, and government.

*Occupational and Environmental Medicine Residency* – This two-year track trains practicing physicians to be qualified for careers in occupational and environmental medicine. This program includes one year of rigorous academic study and one year of experiential rotations to fulfill the requirements of the MPH degree. Students who successfully complete the coursework and rotations are eligible to apply for board certification in occupational medicine by the American Board of Preventive Medicine (ABPM).

*Dietetic Internship* – This program provides students with an opportunity to complete an MPH degree (with an emphasis in Health Promotion/Health Education) while simultaneously completing the requirements of an accredited Dietetic Internship program. Graduates of the Dietetic Internship are prepared to practice as entry-level dietitians, are eligible to take the Registration Examination for Dietitians, and are qualified to apply for dietetic licensure through the Texas Department of State Health Services.

### **Applied Practice Experience**

The applied practice experience, or practicum, is a unique opportunity for our students to apply classroom knowledge in a public health practice setting. Under the direction of a faculty mentor, students work closely with an onsite preceptor to design and complete a project that both benefits the practicum host site and engages their goals and interests. The applied practice experience is required for students completing the MPH and DrPH degrees, but students in all degree-seeking programs are encouraged to participate in a practicum.

### **Research Centers**

UTHealth School of Public Health supports communities through the research and training efforts of its research centers. These centers have been developed by the school's faculty members to enhance areas of interdisciplinary research and give students opportunities to interact in real-world work environments.

- Center for Big Data in Health Sciences
- Center for Health Promotion and Prevention Research
- Center for Health Systems Research, Policy and Practice
- Center for Infectious Diseases
- Center for Pediatric Population Health
- Coordinating Center for Clinical Trials
- Hispanic Health Research Center
- Human Genetics Center
- Michael & Susan Dell Center for Healthy Living
- Southwest Center for Occupational and Environmental Health

### **Accreditation**

The University of Texas Health Science Center at Houston (UTHealth) School of Public Health has been continuously accredited by the Council on Education for Public Health since 1969. The University of Texas Health Science Center at Houston (UTHealth) is accredited by the Southern Association of Colleges and Schools Commission on Colleges. The following academic programs at UTHealth School of Public Health are accredited by their respective accrediting bodies:

[Accreditation Council for Education in Nutrition and Dietetics \(ACEND\) of the Academy of Nutrition and Dietetics](#)  
Dietetic Internship

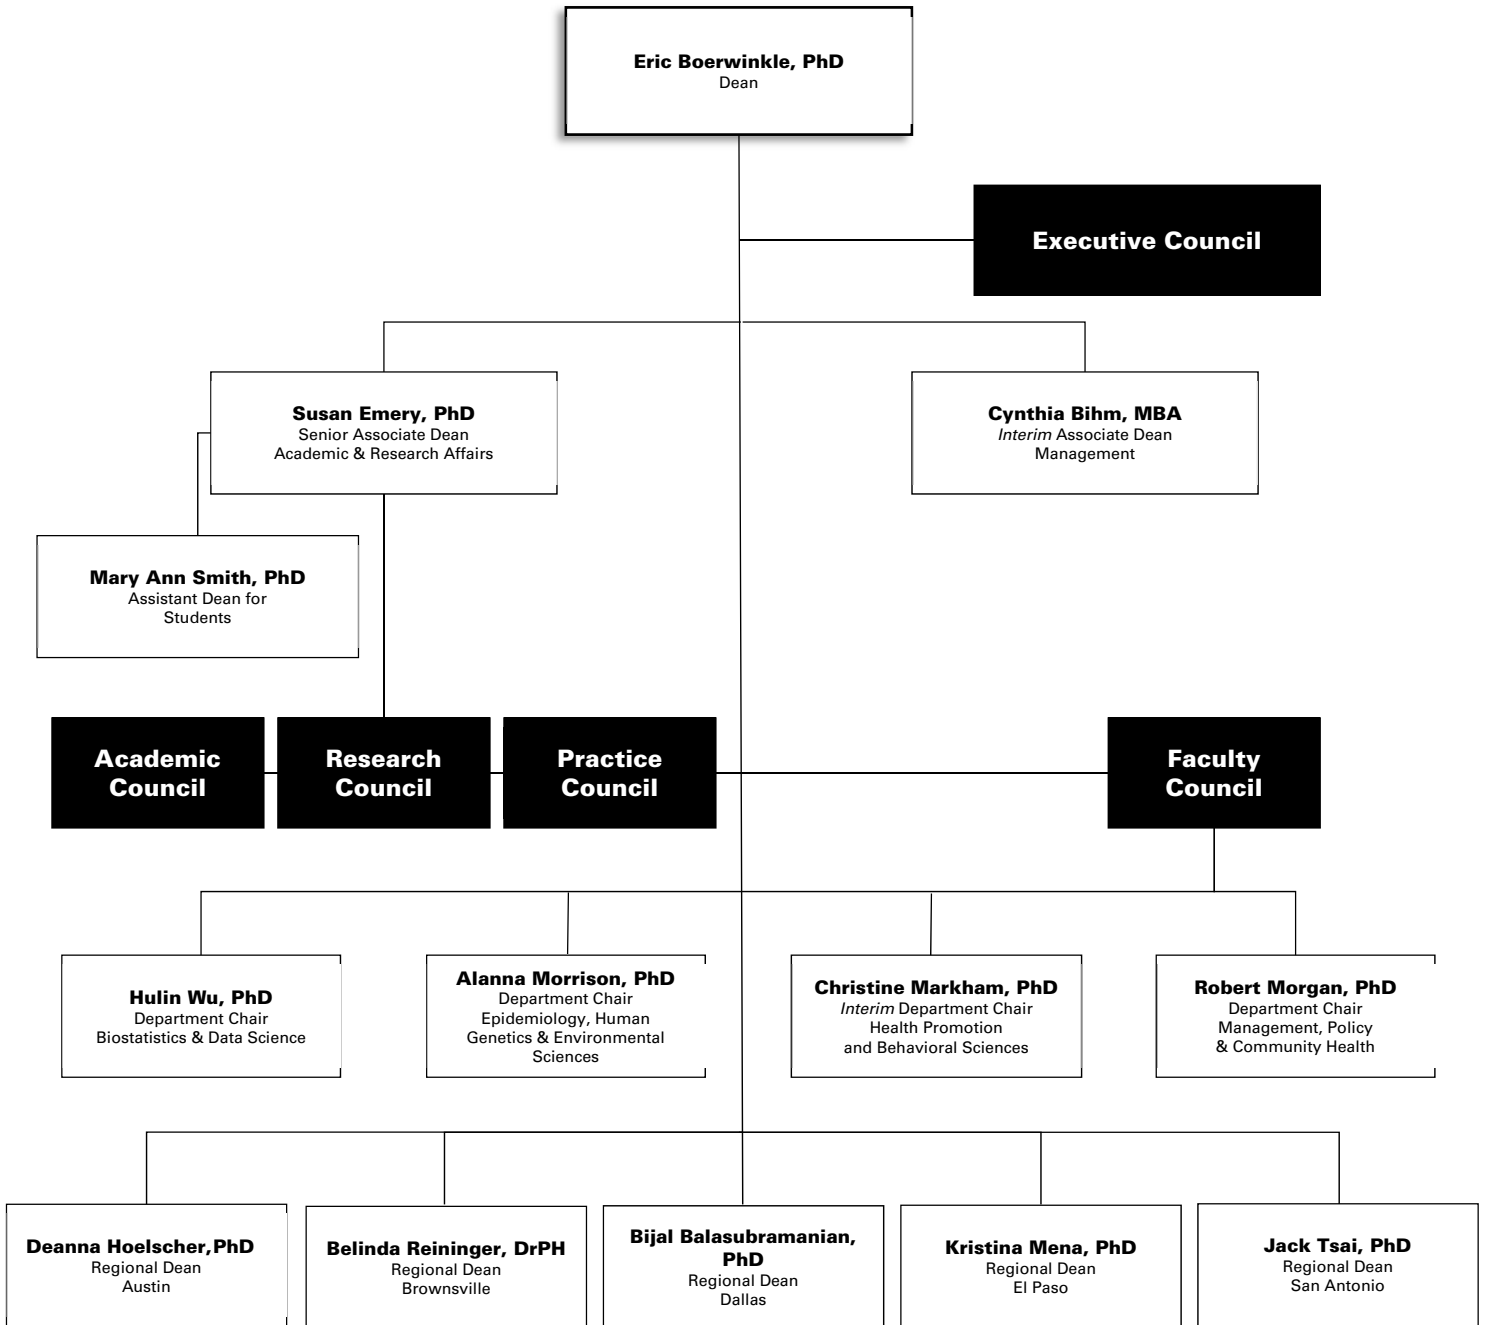

[Accreditation Council for Graduate Medical Education](#)  
Occupational and Environmental Medicine Residency

[Commission on Accreditation of Healthcare Management Education](#)  
Master's Level Healthcare Management curriculum

[Applied Science Accreditation Commission of ABET](#)  
Master's Level Industrial Hygiene curriculum

### FY 2020 Dental and Dental Hygiene National Board Exams

	Total Examined	Total Passed	Percent Passed
National Board Dental Exam, Part 1	101	98	97.03%
National Board Dental Exam, Part 2	103	96	93.20%
DDS WREB Clinical Licensure Exam	98	89	90.82%
National Board Dental Hygiene Exam	38	38	100.00%
Dental Hygiene WREB Clinical Licensure	38	38	100.00%

### 2018-2019 Texas State Board of Nursing Examiners Results

Note: Official 2019-2020 pass rates were not available as of press time

	Total Examined	Total Passed	Percent Passed
NCLEX - RN	364	353	96.98%

### 2019-2020 United States Medical Licensing Examination (USMLE) Results

	Total Examined	Total Passed	Percent Passed
USMLE Step 1 <sup>1</sup>	235	232	98.72%
USMLE Step 2			
Clinical Knowledge Exam <sup>2</sup>	190	187	98.42%
USMLE Step 2			
Clinical Skills Exam <sup>3</sup>	232	217	93.53%
USMLE Step 3 <sup>4</sup>	214	208	97.20%

<sup>1</sup> 2020 results are not available until February 2021. Data shown is for 2019.

<sup>2</sup> Step 2 CK data for exam taken July 1, 2019 - June 30, 2020

<sup>3</sup> Step 2 CS data for exam taken July 1, 2019 - March 13, 2020

<sup>4</sup> Performance of Graduates Taking USMLE Step 3 for the first time – May 2017 through December 2019

### 2020 American Board of Genetic Counseling Exam Results

	Total Examined	Total Passed	Percent Passed
ABGC (August 2020)	7	7	100.00%

## Degrees Conferred by School FY 2013 - 2020

source: Robert Jenkins, Office of the Registrar

CBM009 Certified Graduation Report to the Texas Higher Education Coordinating Board, October 2020

<sup>1</sup>beginning in 2015, only Dental Hygiene Certificates are recorded as Certificates. Post Graduate Certificates (PGCRT) are now recorded separately.

<sup>2</sup>in all degree tables, Dental Post Graduate Certificates (PGCRT) totals include Advanced Education-General Dentistry (AEGD) and General Practice Residency (GPR) programs that are not reported to the Coordinating Board.

# Profile of Medical Residents in ACGME Accredited Programs *September 2020*

source: April Bass, McGovern Medical School

<sup>1</sup> Aggregate reporting requirements for ACGME differ from federal aggregate postsecondary reporting requirements. Hispanic/Latino ethnicity is included in the race categories listed below. In this Profile of Medical Residents, 143 of the 1,128 medical residents reported a Hispanic/Latino ethnicity

Specialty	Male	Female	White	Black	Pacific Islander	Asian	American Indian	Multi-Racial	Other	Total

The UTHealth Advanced Education Programs of the School of Dentistry are composed of three types of students: postgraduate, graduate, and resident.

- A postgraduate student is a dentist registering and paying tuition and fees for courses leading to a certificate in the specialty area.
- A graduate student is a dentist registering and paying tuition and fees for courses leading to a Master of Science in Dentistry degree and a certificate in a dental specialty area.
- A resident is a dentist who receives training in a specialty area, is paid a stipend, and who receives a certificate of completion.
- Residencies are available only in oral and maxillofacial surgery.

## Medical (MCAT) and Dental (DAT) Applicant Scores *Fall 2020 Entering Class*

sources: Robert Spears, PhD, School of Dentistry; Dana McDowelle, PhD, McGovern Medical School

### Applicant Average Medical College Admission Test (MCAT) Scores Fall 2020 Entering Class

Fall 2020 Entering Class		
Subject	All Applicants	Enrolled Applicants
Biological and Biomedical	127.0	128.0
Chemical and Physical	126.7	127.8
Critical Analysis and Reasoning	126.1	126.8
Psychological, social, and Biological	127.5	128.5
<b>Applicant Average</b>	<b>507.3</b>	<b>511.2</b>
<b>Applicant Average Overall GPA</b>	<b>3.64</b>	<b>3.81</b>

### Applicant Average Dental Aptitude Test (DAT) Scores Fall 2020 Entering Class

Subject	All Applicants	Enrolled Applicants
Academic Average AA	19.9	22.3
Perception Ability MA	19.8	21.0
Quantitative Reasoning	18.9	21.1
Reading Comprehension	21.5	23.1
Biology	19.3	21.4
Inorganic Chemistry	20.0	22.4
Organic Chemistry	20.2	23.2
Total Science	18.9	21.9
<b>Applicant Average Overall</b>	<b>19.8</b>	<b>22.0</b>
<b>Applicant Average Overall GPA</b>	<b>3.50</b>	<b>3.78</b>

## Tuition & Fees Fall 2020 & Spring 2021

source: Sue Thomey, Bursar's Office

Level	Resident	Non-Resident
<b>Undergraduate - Nursing</b>		
Tuition (30 semester credit hours)	\$7,140.00	\$29,970.00

<sup>a</sup> On June 30, 1993, the Department of Education initiated a new default rate calculation for the Perkins Loan Program. The new default rate calculation, called the Cohort Default Rate, looks at borrowers entering repayment in a specific one year period. As of June 30, 2020, the Cohort Default Rate for the Perkins Loan Program was 0.68%, for the Year Ending June 30, 2020.

<sup>b</sup> Principal, interest, investment income and late fees.

<sup>c</sup> As of June 30, 2020 overall default rates.

## Total Student Financial Aid Awards by Major Program FY 2011 - 2020

source: Heather Beckles-Bright and James Fore, Office of Student Financial Services

<sup>1</sup> Due to a Student Information System change, if a student accepts a lesser award amount than the original maximum award offered, the offer amount is automatically superseded by the lower accepted amount. In previous years, the original maximum award offered was reported. As a result, the Direct Loan award amounts beginning in the 2013-14 academic year are significantly lower than those reported in previous years.

## Research Expenditures by Unit *FY 2011 - 2020*

source: Scott Barnett, Accounting & Budget

Includes operating expenses, indirect cost recoveries and capital purchased.

Notes (***pertains to all research tables***):

1. Faculty in the Graduate School of Biomedical Sciences hold their primary appointments in another school/institution. As such, their respective research proposals/awards/expenditures are reported accordingly, and not through GSBS.
2. Beginning in FY 2011, McGovern Medical School research activity includes the Institute of Molecular Medicine.

# Grant Proposals by Unit & Type FY 2016 – 2020

source: Frank La, Sponsored Projects Administration

Note: Data reflects the respective annual award amounts for the period it is effective. Clinical research projects that paid based on study subject enrollment were counted as awarded at 100 percent of the contracted amount in the year received, regardless of enrollment/earned revenue. Reporting is on a cash-basis method, reflecting revenue as it is received.

# Contract & Grant Awards by Source FY 2016 - 2020

source: Frank La, Sponsored Projects Administration

Note: Data reflects the respective annual award amounts for the period it is effective. Clinical research projects that paid based on study subject enrollment were counted as awarded at 100 percent of the contracted amount in the year received, regardless of enrollment/earned revenue. Reporting is on a cash-basis method, reflecting revenue as it is received.

## McGovern Medical School Outpatient Clinical Activity - Visits *FY 2011 - 2020*

source: Performance Measures Report to the Legislative Budget Board, November 2020

**Note:** The COVID-19 pandemic beginning in March 2020 had a profound effect on the ability of UTHealth medical, dental and nursing practitioners to perform patient care. FY 2020 decreases are the direct result of clinic closures and subsequent reductions in patient visits due to social distancing requirements. These effects are notable on the patient care tables that follow in this chapter.

	<b>Total Outpatient Visits</b>
FY 2011	1,016,044
FY 2012	1,122,530
FY 2013	1,279,023
FY 2014	1,487,696
FY 2015	1,647,382
FY 2016	1,757,911
FY 2017	1,801,859
FY 2018	1,837,896
FY 2019	1,874,654
FY 2020	1,698,436

## Un-sponsored Medical & Dental Charity Care Provided by Faculty *FY 2018-2020*

sources: Performance Measures Report to the Legislative Budget Board and Sophia Saeed, DMD, School of Dentistry

Definition of Un-sponsored Charity Care: Total dollar amount of indigent patient charges provided in hospitals and clinics contracted with or owned, operated, and funded by the health-related institutions during the reporting period.

	<b>McGovern Medical School</b>	<b>School of Dentistry</b>	<b>Total Cost of Un-sponsored Charity Care</b>
FY 2018	\$26,693,335	\$1,900,423	<b>\$28,593,758</b>
FY 2019	46,245,423	1,618,120	<b>\$47,863,543</b>
FY 2020	9,201,116	1,512,339	<b>\$10,713,415</b>

## Faculty by Full-time/Part-time Status *Fall 2015 - 2020*

source: PeopleSoft HCM, Certified CBM008 Faculty Report to the Texas Higher Education Coordinating Board, as of October 1, 2020

Notes (*pertains to all faculty and employee tables*):

1. With the exception of Fall 2013, faculty in the Graduate School of Biomedical Sciences are counted in their school of primary appointment.
2. Beginning in Fall 2011, McGovern Medical School counts include Institute of Molecular Medicine faculty and/or staff.
3. Per federal guidelines, postsecondary educational institutions must report data using nine specified reporting categories, which include: Nonresident aliens (for whom neither race nor ethnicity is reported), Hispanic/Latino of any race, For individuals who are non-Hispanic/Latino: American Indian or Alaska Native, Asian, Black or African American, Native Hawaiian or Other Pacific Islander, White, Two or more races, and Race and ethnicity unknown. <https://www2.ed.gov/policy/rschstat/guid/raceethnicity/questions.html>
4. Academic A&P are included in faculty totals since incumbents must hold a faculty position in order to be eligible to serve in an Academic A&P role and are counted as faculty in the CBM008 certified faculty report to the THECB.

## Employees by Employment Category Fall 2017 – 2020

source: PeopleSoft HCM, Certified CBM008 Faculty Report to the Texas Higher Education Coordinating Board, as of October 1, 2020

<sup>1</sup> A&P includes both Management and General Administrative and Professional staff; Academic A&P are included in faculty totals since incumbents must hold a faculty position in order to be eligible to serve in an Academic A&P role and are counted as faculty in the CBM008 certified faculty report to the THECB.

<sup>2</sup> Residents and fellows formerly paid through the Medical Foundation were made employees of the university in FY 2019.

Note: Totals do not include casual or student employees.
