### Course Objective

#### Material Covered:

This third-year elective will introduce students to the subspecialties of internal medicine. Students will have the opportunity to preference the following experiences: ambulatory medicine, cardiology, endocrinology, pulmonary medicine, nephrology, rheumatology, and medical oncology.

The elective experiences are available as follows:

<b>Period A (First three weeks of each four-week elective period)</b>	<b># of Students/3-week period</b>	<b>Period B (Second three weeks of each four- week elective period)</b>	<b># of students/3-week period</b>
Endocrinology Clinical Elective	1	Pulmonary Medicine Consultation Service	1
Cardiology – Memorial Hermann Hospital	1	Cardiology – LBJ General Hospital	1
Ambulatory Elective – Internal Medicine	1	Medical Oncology	1
Nephrology – LBJ	1	Rheumatology Clinical Elective	2
General Oncology – LBJ	1		

Please refer to the individual elective descriptions for specific learning objectives, elective activities, and scheduled duties.

### How Is Student Evaluated:

This elective is pass/fail. Students will be evaluated by faculty based on their attendance and participation in didactic sessions and attendance at clinical assignments and participation in clinical activities. The students are evaluated based on the demonstration of their accomplishment of the objectives. Mid-rotation feedback in writing is required for all students.
