

# MARCH 2021 SEGA Newsletter

Happy March Everyone!

As of March 3rd, we have currently enrolled **140 subjects** in SEGA. We did not quite reach our enrollment goal of 10 patients for month of February, but we were able to increase enrollment by 3 subjects. With that being said, **we are hoping to really get enrollment moving this month.** We have a total of 10 sites, with 7 being active and cleared to enroll. Please let us know if there is anything you need from us to help increase enrollment at your site! We are always happy to help.

Additionally, here at UT we are so excited to welcome our **new research coordinator Eddie Aguilar**. Eddie will be working on the SEGA trial as well. He can be reached at [eddie.aguilar@uth.tmc.edu](mailto:eddie.aguilar@uth.tmc.edu)

We are so happy to have Eddie on board and helping with the SEGA trial!

**If you ever have difficulties or need help enrolling, feel free to call any member of our UT Team and we can help in randomization and enrollment at any time.**

**Eddie Aguilar: 832-398-1296**

**Allie Engstrom: 503-501-9912**

**P. Roc Chen: 281-881-6426**
